

Weekly Lesson Plans
WIDA Content and Language Objectives

Mr. Wilkie-7th-Grade Mathematics

May 14th-18th, 2018	Monday	Tuesday	Wednesday	Thursday	Friday
Content Objective	SW analyze ratios, proportions, and rates by using a review sheet and graphic organizer to solve problems (Unit Review-CS)	SW analyze proportional reasoning by performing successfully on Common Assessment.	SW analyze linear relationships by using equations and measurement to analyze their heights.	Today there is a PBIS event in morning at the Hs. Students will see the Adams Family.	SW analyze linear relationships by finding the slope using rise over run. (Use thatquiz.org)
Language Objective	SW read and write and orally share answers to ratios, proportions, and rates Review sheet	SW read and comprehend several vocabulary words (see below) by working through common assessment.	SW write and compute their findings in a graphic organizer and share with the class.		SW write definition of slope and perform several examples of each.
Weekly Vocabulary	Markup, markdowns, tax, tip, discounts, percents, ratios, rates proportions, variables	Markup, markdowns, tax, tip, discounts, percents, ratios, rates proportions, variables	$y=mx + b$, slope, y-intercept, ratio, rise, run, negative, positive		$y=mx + b$, slope, y-intercept, ratio, rise, run, negative, positive
CCS Covered and short description	7.RP All standards will be summarized	7.RP All standards will be summarized	7.EE.B.4 Solve real-life mathematical problems		7.EE.B.4 Solve real-life mathematical problems

Monday: Unit Review-Proportions **Tues:** Common Assessment-Proportions **Wed:** Equations to estimate height **Thurs:** PBIS Event
Friday: Finding Slope (m)
